#### Description:

Samarra University supports all projects that involve treating organic waste by specialized companies or research projects by researchers in research centers and colleges for the purpose. The university sought to develop specialized units to dispose of organic waste from all buildings and facilities on campus. Currently, the university owns a center for recycling organic waste in the first stages. The university also has a partnership contract with the Samarra Municipality Directorate, which owns a central treatment plant for recycling the city's waste.
